

ThermaDoor™

Garage Door Insulation

IS YOUR GARAGE STINKING HOT IN SUMMER AND FREEZING COLD IN WINTER?

DID YOU KNOW THAT THE TEMPERATURE WITHIN YOUR GARAGE DRAMATICALLY IMPACTS YOUR HOME AND YOUR ENERGY BILLS?

Insulating your garage door with ThermaDoor Garage Door Insulation is the ultimate energy efficient solution for your garage. ThermaDoor will dramatically reduce the heat/cold radiating off your door and into your home, reduce your energy bills and significantly decrease street noise.

Feedback from clients all over Australia tell us that you can expect between 8-13 degrees internal temperature difference inside the garage depending on the orientation of your home.

ThermaDoor's designer white laminate finish will transform the look of your garage enabling you to convert your garage into another functional living space, whether it be a home office or home gym, kids play area or man cave the options are endless.
